ASM Quarterly Incentive Plan

The Process

- Incentive periods are
  - Q1 January-March
  - Q2 April-June
  - Q3 July-September
  - Q4 October - December
- Incentive payouts will be made 45 days following the end of the incentive period

Eligibility

- New employees must work at least 60 days in the quarter to qualify for a pro-rated bonus
- Employees who leave the company voluntarily and in good standing, must give at least a 2 week notice and **be employed on the day the incentive is paid out to qualify for a bonus**
- Employees who have been put on a performance improvement plan at any time during the quarter do not qualify for a bonus
- Employees who are involuntarily terminated at any time during the quarter do not qualify for a bonus.
- If a hotel leaves the program during the quarter, that hotel's revenue does not qualify for incentive payout and the loss will be carried throughout the year for the Gillis Retention component of this plan.

Quarterly Incentive Plan

Quarterly payouts are based on the following components

- Client Retention
- Client Performance
- POD Performance

Each component is independent of the other, not meeting the minimum requirement for one does not disqualify ASMs from achieving the other.

Maximum Payout

The maximum payout per quarter per ASM is $3,000.

1. CLIENT RETENTION 50% Weight

The objective of this component is to incentivize ASMs for keeping their Gillis Portfolio of Business active throughout the entire year.

- By January 1st Gillis revenue targets will be defined and communicated to each ASM (the baseline revenue will be based on the active hotels that the ASM has as of January 1st each year)
- $250 payout per selling day for those hotels that remain active at the end of each evaluated quarter.
- Hotels that leave during the quarter are not entitled to payout and their loss will be carried throughout the year. At the discretion of your DOS, eligibility considerations may be made for hotels leaving the program for the Lost Reasons listed below:
    - Hotel is sold
    - Change in Hospitality Management Company
    - Gillis terminated the partnership

    The above lost reasons would not impede or reduce the ASM eligibility or count against them for the balance of the year

- New and reassigned hotels added during the year will be eligible for payout after 6 months in the program.

2. CLIENT PERFORMANCE – 30% WEIGHT

The objective of this component is to incentivize the ASMs that increase our clients ROI during their life-time tenure in the program

- Goals will be based on ROI scale below

# Months in Program	ROI Goal
1 to 6 Months	2X ROI
7 to 12 Months	4X ROI
13 to 24 Months	6X ROI
25 to 36 Months	8X ROI
37 to 48 Months	10X ROI
49 and Plus	12X ROI

- $150 payout per selling day of the ASM's portfolio that achieve the revenue
- For those hotels that leave and return within the same calendar year, the ROI Goal will reset.
  - **Example:** In February 2025 a hotel with an 8X ROI Goal leaves and decides to return to the program in August 2025, the ROI Goal will reset to 2X as August will be consider Month 1 in the program)
- 85% Threshold to receive pro-rated amount)
  - **Note:** No qualifier needed. Each hotel in the ASM's portfolio that achieves the client revenue goal will receive full or pro-rated payout accordingly.

Example:

Hotel Name	# Selling Days	Reveue for Quarter	# Months in Program	ROI	QTR Revenue GOAL	QTR Revenue ACTUAL	% Ach	Payout?	Payout Amount
Hotel A	1.0	$ 8,100	43	10	$ 81,000	$ 688,500	100%	Y	$ 150
Hotel B	1.0	$ 8,100	36	8	$ 64,800	$ 51,200	79%	N	$ -
Hotel C	1.5	$ 12,150	36	8	$ 97,200	$ 1,032,750	100%	Y	$ 225
Hotel D	1.0	$ 8,100	32	8	$ 64,800	$ 59,850	92%	Y	$ 139
Hotel E	1.0	$ 8,100	23	6	$ 48,600	$ 247,860	100%	Y	$ 150
Hotel F	0.5	$ 4,050	14	6	$ 24,300	$ 123,930	100%	Y	$ 75
Total Payout									$ 739

3. POD Performance – 20% Weight

The objective of this component is to incentivize the POD by recognizing the combined efforts of the Team to retain our clients during the full year.

- POD Performance is tied to the results of the Retention Performance component (Average Results of the POD as explained in the example below)
- POD Payout will be calculated by multiplying the number of selling days of hotels that achieved the goal by $100

- ASM will receive payout for each one of her/his hotels that achieved the goal
- 85% Achievement required to receive payout

Example

- Total selling day in the POD: 52
- Total selling days of hotels that achieved goal: 48
- % of Achievement: $92%
- Total amount to be divided among the POD: 48 selling days x $100 x 92% = $4,416
- Amount to be paid to ASM per selling day = $4,416 / 48 selling days = $92.00
- Based on the example above ASM will receive $92 x 6 selling days = $552

Revenue Validation Criteria

- For accounts that were already producing revenue prior to our sales support, only the revenue **growth** will be counted towards the revenue goal
- Revenue from Opportunities that have not been nurtured within the quarter or within the previous 90 days do not qualify for incentive payout. At least one Activity

- for each producing Opportunity must be logged in Salesforce within that time frame for the revenue to be included in the final numbers. Any exceptions need to be approved by the Sr. DOS

- Hotels that are re-assigned from one ASM to another within the calendar year will count in full towards all calculations but will be pro-rated for the Retention and Client Performance components based on the date of re-assignment.
  - Example:
    - Hotel gets re-assigned in the beginning of Month 2:
      Incentive for Month 1 will be credited to the previous ASM's and Months 2 and 3 will be credited to the new ASM's Individual assigned to the hotel.
